"Our mission is to be a recognized leader in overhead lifting equipment and maintenance services through performance, reliability and integrity. " — James Doty, President

Response, Skill and Experience

For nearly 40 years, Expert Crane has provided design, installation, relocation, modernization, maintenance and inspections for overhead material handling systems. Our experience and know-how ensure that you select the right system for your operation or extend the life-span of your existing material handling equipment. The 50,000 square foot Cuyahoga Heights, Ohio facility allows Expert Crane to handle jobs of any size and scope.

Servicing a Wide Range of Industries

Expert Crane has served the industrial centers of Ohio, Michigan, Pennsylvania, Illinois and Indiana since 1977 with experienced service technicians, specialists and support staff. Our customer base includes steel warehouses, plastic injection mold facilities, tool & die facilities, metal service centers, automotive industry, aviation industry, waste water treatment facilities, power plants, machine shops, machine builders, general fabrication facilities and general industry.

Keeping You Up and Running

We know that response time is critical for your business. Our modern fleet of service trucks are equipped for mechanical, electrical and structural maintenance and repair of all crane types. With 24 hour emergency service, Expert Crane delivers the fastest results with skilled and certified technicians on-site as soon as possible.

Expert Crane is also committed to minimizing downtime in your overhead material handling solution. Leading manufacturers and distributors count on Expert Crane to maintain productivity by limiting downtime through preventative maintenance programs. The comprehensive inspection program exceeds OSHA requirements and helps to identify service needs before the equipment goes down.
