### **Company Profile**

Established in 1961, Cleveland Vicon is a family owned business specializing in commercial hardware, wood doors, hollow metal doors and access control systems. Their in-house hollow metal fabrication shop allows them to customize the material they deliver to the job. They can also make field modifications of steel doors and frames that look like brand new product. The company takes pride in their ability to design, deliver, install, and program access control security systems so they'll work properly the first time and every time.
