

Columbia National Group Inc. | The Universal Steel Company

6600 Grant Avenue, Cuyahoga Heights, Ohio 44105

Company Profile

Columbia National Group Inc., established in 1926, is the parent company of The Universal Steel Company. The Universal Steel Company, established in 1984, is a privately held flat rolled steel service center located in Northeast Ohio and serving the United States. Universal Steel supplies hot roll, cold roll and coated carbon steels. Universal Steel cut coils to length, slit to width, shape correct and supply master coils. Their 200,000 square foot facility stores an inventory of more than 50,000 tons. Their cut-to-length equipment can provide memory-free steel sheets up to one-inch thick and 72 inches wide.
