

Enprotech Industrial Technologies

4259 East 71st Street, Cuyahoga Heights, Ohio 44125

Company Profile

Since 1941, Enprotech Industrial Technologies has consistently set the standard for excellence for repair, rebuilding and modernization of process equipment for the metal stamping, metal forming, metal pressing and metal forging industries. Enprotech Industrial Technologies Inc. also has over 60 years of designing, manufacturing and repairing manufacturing equipment for the steel manufacturing and aluminum manufacturing industries. Their expertise with precision steel processing machinery repair starts at the coke ovens and flows through to the finishing mills. They also have global partnerships that allow comprehensive support for modernizing out dated steel manufacturing equipment.
