

Specialized Construction

711 Harvard Avenue, Cuyahoga Heights, Ohio 44105

Company Profile

Specialized Construction Inc. was established as a family-owned asphalt paving company in 1960 by John Alberty under the name Ajax Bituminous Paving in Cleveland, Ohio. In 1998, John Alberty retired. His son, John Alberty, and long-time employees John Galik and Bruce Farr, decided to buy Ajax and renamed the company Specialized Construction Inc. The company name reflects the use of specialized asphalt processes, some of which are only offered by SCI. Since its establishment, SCI has grown from 10 to 44 employees while increasing revenue more than six times in part to providing more innovative, cost-effective processes that are public and budget-friendly.
